6 Solution Zones

Security & AIoT Zone

5G & telecommunication technology Zone

Smart Factory & Industrial Safety Zone

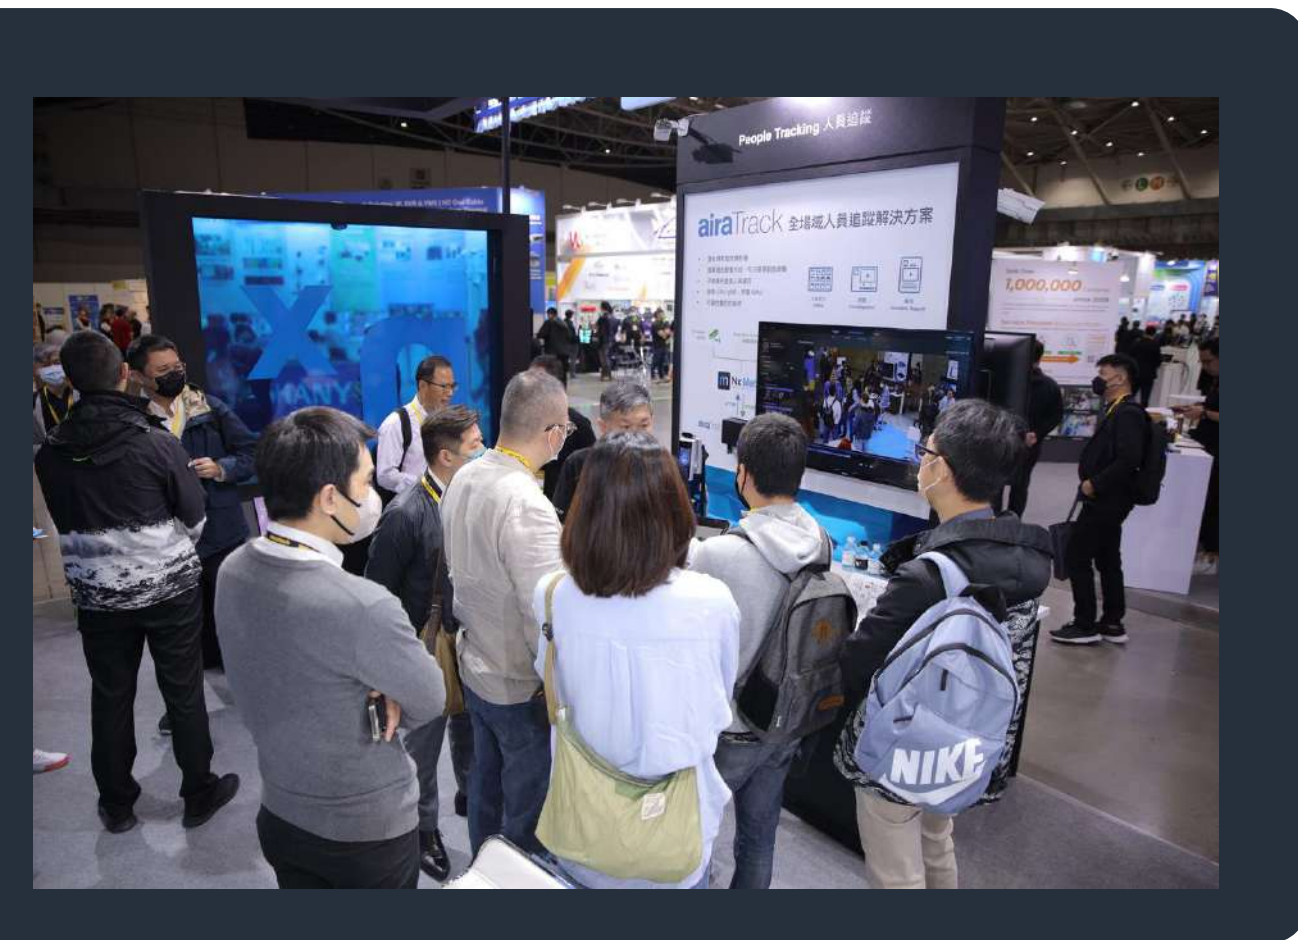

Exhibit a range of advanced products, technologies and solutions. Integrated AI technology with big data and security control. Available to apply in various industries, including construction, security, warehousing, and transportation management.

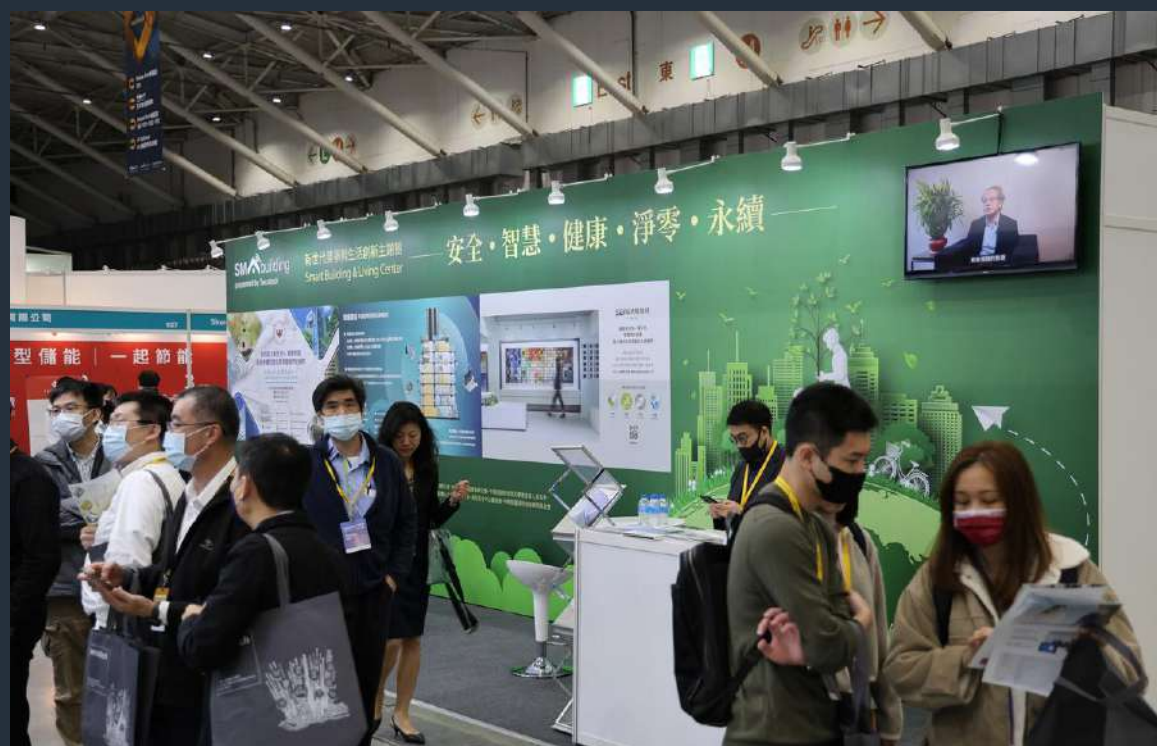

Organized by Taiwan Telecommunication Engineering Industry Association. Present all kinds of 5G private network solutions and host a 5G application forum.

Highlight the importance of factory facilities and workers protection. Themes include industrial safety detection, smart factory, factory environmental safety, logistics and warehouse management and so on.

6 Solution Zones

Smart Building and Living Zone

With the latest smart home and home automation networking programs, alongside with automation and management system, the area provides visitors with the most advanced building technology and solution.

Smart Railway Equipment Zone

Display latest applications of AI technology in intelligent transportation system. Also showcasing smart railway systems which focus on rail control safety, electromechanical integration, and car monitoring solutions.

Fire Protection and Disaster Prevention Tech Zone

Each booth unveils different products for fire protection. The range even includes detection products that combine AI technology and recognition system. A fire truck with up-to-date protective equipments attracts wide attention.

Exhibitor Feedback :
A professional platform that attracts international buyers to revisit.

Mr. Michael Meissner / Chief Executive Officer, AEviso Group

Secutech is an effective platform for us to demonstrate our series of products. Also, It allow us to study the latest trends in AI and the advancements in technology which help us to improve our monitoring products by reducing false alarms. Through Secutech, we have better prospects for exposing our products and expanding our market.

Mr. Victor Xu / Marketing Department, Klacci

Secutech makes it possible for us to meet and exchange ideas with visitors from different countries and industries. Secutech is an excellent, engaging platform and we look forward to participate in future events in order to receive more feedbacks and consistently improve our products.

Mr Kevin Huang / General Manager, Advanced Seating

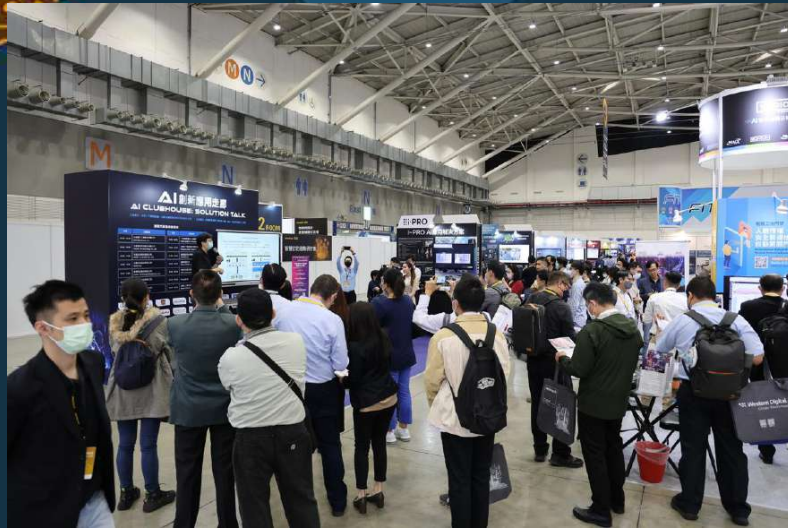

Our manufacturing process follows the latest industrial standards which meets the EU regulatory requirements. We produce seats for railway systems and public transportations. Secutech allows us to find target buyers effectively. We are grateful for the support and hope to continue joining Secutech in the future.

Mr. Peter Chan / Managing Director, LHD Group Hong Kong Ltd.

Secutech provides a platform for visitors to share their opinions and ideas, thus finding suitable business partners. As one of the local exhibitors, frankly speaking, most of our customers are domestic, but participating in this platform has allowed us to approach potential buyers from overseas.

Overseas Visitor Feedback :
Secutech is the best platform for seeking business partners.

I come to Secutech to look for image recognition software for use within our warehouses in Cambodia. Secutech displays many high-tech products that have captured my attention. I am eager to share the technologies and solutions that I have seen here with my Cambodian business partners. Taiwanese exhibitors possess deep knowledge of high-technology, and I am pleased to have this professional exhibition as an opportunity to explore potential collaborations.

**Mr. Sambath Karuna, Co-founder and
Chairman, Special Trust (Cambodia) Co Ltd**

I am from France and this is my second time attending Secuech. Advanced AI-based biometric image recognition is efficient for providing huge volume of data, so we are seeking products that intergrated such technolgy with software application. Secutech presents many products and solutions that we are not able to find in Europe. We hope to work in partnership with Taiwanese suppliers, and we definitely will revisit Secutech again. Thank you, Secutech, for providing a high-quality platform and all the bussiness opportunities.

Mr. Sebastien LOEB, Chief Executive Officer, Videoconsult

We are a security company that provides security guards, ESS electronic monitoring equipment, ATM and cybersecurity services for banks. The main purpose of our visit to Secutech this time is to find security products to upgrade our access control and monitoring system. We are delighted to find that the exhibited products from various companies are of high quality and meet safety standards. Secutech is a professional exhibition where I can easily search for all the products that interest me. Surely I am coming back next year.

**Mr. Surya Parkas A/L Nokaraju,
Senior Manager, SB Machines Sdn**

Bhd

Numerous video surveillance devices and AIoT programs are exhibited at Secutech this year. In which I can find security solutions from VMS monitoring systems and AI vision software, and our company spend nearly a million dollars to purchase related products every year. All of the products we find at Secutech are of finest quality. Secutech is absolutely worth visiting, which is why I must attend to seek for business connections and opportunities.

Explore Your Camera-embedded Sensor Technologies with Taiwanese Manufacturers

Current security cameras are transformed and enhanced with AIoT technologies to be in intelligent actions toward different scenarios and functions. We can see an enormous change in all industries for them to manage and react smarter, faster, and much more securely with a high-quality surveillance system, which importantly, requires professional partners to provide effective and advanced camera-embedded sensor technologies.

Secutech International 2023 is the highly professional-gathered event for you to not only explore camera-embedded sensor technologies and off-the-shelf solutions with technical Taiwanese manufacturers but also have the opportunity to cooperate with various partners for their hybrid designed smart products for your best price-performance ratio choices.

Find your best technical partner in AIoT solutions NOW!

Secutech 2023台北國際安全科技應用博覽會 創造新價值 拓展安全科技新商機

鄭文燦：防護關鍵基礎設施 特種警察應予更好保障

The Central News Agency 中央通訊社
2023年4月26日

(中央社記者賴于核台北26日電)行政院副院長鄭文燦今天說，為強化關鍵基礎設施防護將提升相關防護人員訓練，對這類特種警察，應給予更好權利與保障；同時，警察不會當軍人，外界不必擔心。

鄭文燦今天出席「Secutech 2023第二十四屆台北國際安全科技應用博覽會」開幕典禮，他表示，政府非常重視台灣如何再增加國家韌性與防災韌性，目前也已提出修法案加強護關鍵基礎設施，並要求關鍵基礎設施需要備援機制。

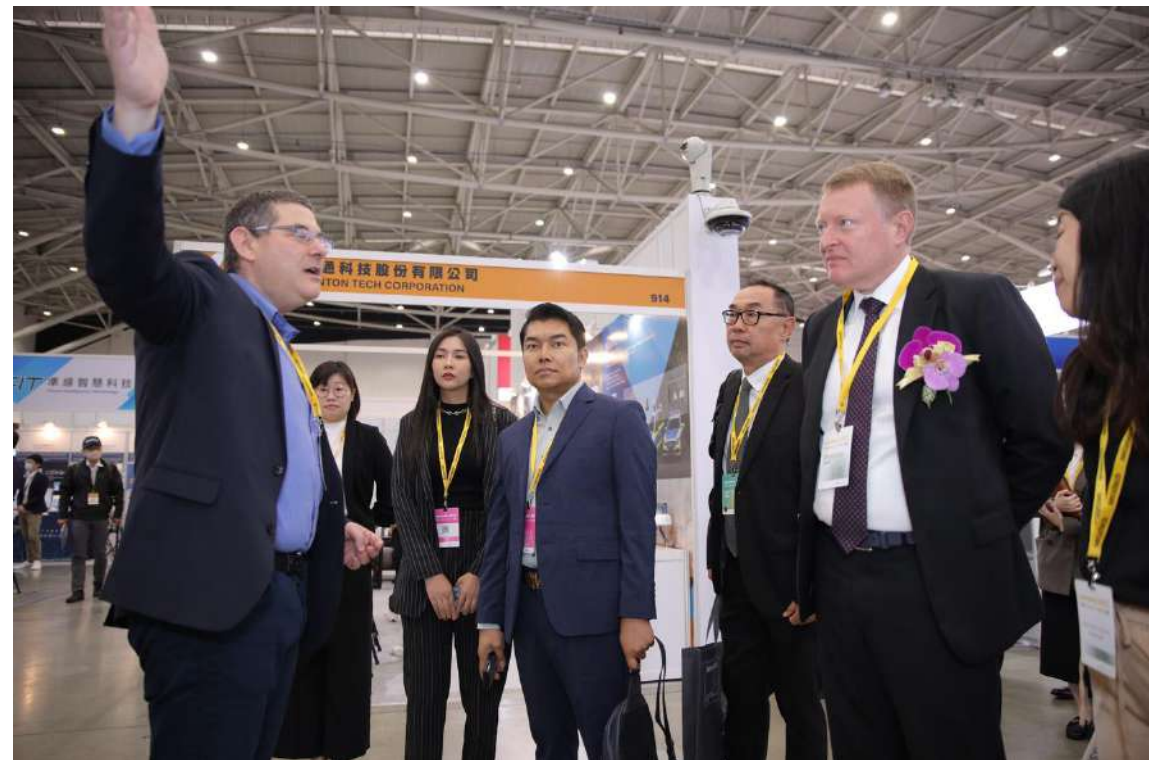

他說，政府會持續支持相關安全科技應用國產化，除了要防止可能的資安漏洞，也希望掌握更好的技術。

有關外界關注保安警察第二總隊可能擴編，施以軍事訓練等議題，鄭文燦會後接受媒體訪問表示，警察不會變成軍人，軍警有其界限，不過全世界各國都有特種警察，台灣保安警察第二總隊，則軍警兼職也有特種警察隊。
